

22 November, 2016

Primary Care Asthma Update for GPs

**Proudly brought to you by the National Asthma Council
Australia as part of the Asthma Best Practice for
Professionals Program**

The Primary Care Asthma Update covers the essentials of best-practice asthma and respiratory management for GPs. The modules will include: an asthma overview; medications; inhaler devices for Asthma and COPD.

Presenter:

Dr Tim Foo

Learning outcomes

- Increase knowledge and awareness of current, evidence-based best practice in asthma and respiratory management
- Develop practical skills to support the use of evidence-based procedures and practices (e.g. device use, patient education)
- Learn strategies to incorporate this knowledge/skills systematically into routine clinical practice
- Increase confidence in managing patients with asthma and linked chronic respiratory conditions
